

The British Club of The Hague

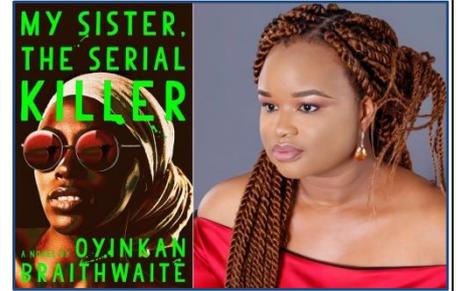

What you can look forward to in the month of NOVEMBER 2021

<p>Friday 5</p>	<p>10.45</p>	<p>The General Discussion Group this month will consider Humour. Human beings differ from most other creatures in that they can create and enjoy humour. Much humorous input is to be found in books and films, or these days on TV and the internet. Do we enjoy comedy as a genre? How do written jokes and cartoons compare with a spontaneous, quick-witted remark in a real-life situation? There can also be a downside to humour: cruel jokes. How far can one go at the expense of others, even if the joke is in itself funny and witty? Political cartoons may come in this category.</p>	 <p>THE EVOLUTION OF HUMOUR</p>

*For the Readers' Discussion Group this month, Georgina James will be leading a discussion about **My Sister, the Serial Killer** by Oyinkan Braithwaite. The novel opens as the narrator Korede is trying to cover up a murder that her younger sister Ayoola has committed, and she has plenty of experience because it isn't the first time. The tension quickly rises in this short, darkly humorous novel which explores many themes including sibling bonds, wider familial relationships and the interactions between men and women in a patriarchal society. It is available in the BCH library.*
